

Mohan Xu
DETAILED CURRICULUM VITAE
September 2026

Guanghua School of Management
Peking University, Beijing, China

Email: xu.mohan@stu.pku.edu.cn
Website: mohan-xu.github.io

Education

- Ph.D. in Economics, Peking University
Guanghua School of Management 2020-2027 (expected)
Doctoral advisor: Yao Tang
- Bachelor of Economics, China Foreign Affairs University
School of International Economics 2016-2020
Undergraduate advisor: Shaojun Fu
- Bachelor of Laws, China Foreign Affairs University
Department of International Law 2016-2020
Undergraduate advisor: Chunyan Zhang

Fields of Interest Macroeconomics, Monetary Economics, Large Language Models, the Chinese Economy, International Economics

Research Papers *Working Papers*

1. From Talk to Walk: Fiscal Communication and Asset Prices in China (2026)
(Job Market Paper)
Authors: [Mohan Xu](#), Yixin Zhang, Runheng Li and Yao Tang
Summary: Builds an independently annotated knowledge base and combines it with retrieval-augmented generation (RAG) for large language models to identify fiscal policy stances in official Chinese communications and analyze the effects of fiscal expansion on asset prices and the macroeconomy.
2. Economic Disagreement Across U.S. and Chinese Large Language Models: Evidence from Equity Markets
Authors: [Mohan Xu](#), Yuankuan He, Yao Tang and Feng Li
Summary: Collects real-time economic forecasts from U.S. and Chinese large language models, documents their disagreement and a home-market advantage in equity return forecasts, and uses this disagreement to construct forecast combinations.
3. From Policy Text to Policy Response Functions: Inference with Generated Semantic Partitions
Authors: Pengcheng Ding, Mengxi Yu, [Mohan Xu](#), Feng Li and Yao Tang
Summary: Develops generated semantic partitions for structured analysis of policy texts and uses them to infer policy response functions.
4. The Phillips Curve in the Mind: Experimental Evidence from Chinese Business Executives
Authors: Boning Liu, Yao Tang and [Mohan Xu](#)
Summary: Uses a survey of Chinese entrepreneurs with an embedded information intervention experiment to show how historical benchmark information revises inflation perceptions, growth expectations, and beliefs about the relationship between the two.
5. What Explains the Greening of China's Energy Outward Direct Investment? A Host-Country Policy Perspective
Authors: [Mohan Xu](#) and Yao Tang
Summary: Documents the sustained rise in the share of renewable energy projects in

China's outward direct investment in energy and analyzes the effects of host-country environmental regulations and financial conditions.

Conference Paper

1. FMPAF: How Do Fed Chairs Affect the Financial Market?

A Fine-grained Monetary Policy Analysis Framework on Their Language (with Yayue Deng and Yao Tang), *Association for the Advancement of Artificial Intelligence 2024 Workshop on AI in Finance for Social Impact*.

- Based on this research, the team was granted a Chinese invention patent, “A Method and System for Multimodal Fine-Grained Stance Analysis Based on Large Models” (Patent No. ZL 2024 1 0159489.0; title translated from Chinese).

Work in Progress

1. Decoding Fed Speak: Does Transparency in Policy Communication Matter? (with Pengcheng Ding, Mengxi Yu, Feng Li and Yao Tang)

Project summary: Uses large language models to quantify the clarity of Federal Reserve chairs' communications and assess its effects on financial markets.

2. Monetary Policy Communication and the Yield Curve

(with Payne Hennigan and Yao Tang)

Project summary: Uses large language models to conduct a structured analysis of Federal Reserve chairs' communication texts, identify their underlying policy rules, and assess their effects on the yield curve.

Conferences and Seminars

Paper Presentations

- Asia Meeting of the Econometric Society-China (AMES2026-China)
Hong Kong, China June 2026
From Talk to Walk to Stock: How Does Fiscal Communication Move Financial Markets in China? (with Yixin Zhang, Runheng Li and Yao Tang)
- The 13th World Congress of the Econometric Society
Seoul, South Korea August 2025
Decoding Fed Speak: Does Transparency in Policy Communication Matter? (with Pengcheng Ding, Mengxi Yu, Yao Tang and Feng Li)
- The 45th International Symposium on Forecasting
Beijing, China July 2025
Title at presentation: *When Algorithms Speak with Accents: Economic Forecasting Disparities Across Language-Specific LLMs* (with Yuankuan He, Feng Li and Yao Tang)
- 2025 Peking-Tsinghua-Waseda Forum on Macroeconomics
Beijing, China May 2025
FMPAF: How Do Fed Chairs Affect the Financial Market? (with Yayue Deng and Yao Tang)
- University of International Business and Economics
Beijing, China January 2025
Use LLM to Decode Macro-Policy Communications (with Yao Tang)
- The 38th Annual AAAI Conference on Artificial Intelligence
Vancouver, Canada February 2024
FMPAF: How Do Fed Chairs Affect the Financial Market? (with Yayue Deng and Yao Tang)

Teaching	Teaching Assistant, Guanghua School of Management, Peking University (Responsibilities included grading assignments and exams, holding office hours, and leading recitation sessions.)	
	• International Economics (undergraduate)	Spring 2025
	• Financial Econometrics (graduate)	Fall 2024
	• Selected Frontier Topics in Macroeconomics (graduate)	Fall 2024
	• Microeconomics (undergraduate)	Fall 2024
	• Chinese Economy (undergraduate)	Fall 2022
	• Game Theory (graduate)	Spring 2022
	• China in the Global Economy (MBA)	Fall 2021, Fall 2023, Fall 2024
Research Projects and Policy Studies	Research Assistant	
	• Professor Yao Tang Guanghua School of Management, Peking University	2021-2025
	• Professor Qinghua Zhang Guanghua School of Management, Peking University	2021
	Research Projects and Policy Research (Participant)	
	• A Study of Development Goals and an Evaluation Indicator System for Chinese Modernization NDRC (Major Research Project)	Oct. 2022-Jan. 2023
	• A Study of Economic and Social Development Goals and Indicators for the 15th Five-Year Plan Period NDRC	June-Dec. 2024
	• Analysis of Optimal Pathways to Carbon Neutrality in the Transport Sector Energy Foundation China	Apr.-Oct. 2024
Non-academic Internships	• Enterprise Research Institute Development Research Center of the State Council Policy Research Assistant	2021-2022
	• Yinhua Fund Management Macro Research Team, Fixed Income Research Department Macro Quantitative Research Intern	2026
Services	• Organizer, Macroeconomics and International Economics Reading Group Guanghua School of Management, Peking University	2024
	• Conference Volunteer, The 2025 International Symposium on Forecasting (ISF) Annual Meeting	2025
	• Discussant, The 2025 Peking-Tsinghua-Waseda Forum on Macroeconomics	2025
Scholarships and Honors	• Peking University, Doctoral Assistantship Scholarship	2022-2026
	• Peking University, Graduate Academic Scholarship	2020-2022
Programming and Languages	• Programming: Python, STATA, Matlab, SQL	
	• Languages: Chinese (native); English (fluent; TEM8: Excellent)
